📁 PROJECTS

Transcendence 
It is a FullStack project and SPA and SSR were written with vanilla js. The design was developed with Bootstrap. It offers the features of playing Ping - Pong with your friend and creating tournaments.
<https://github.com/b-tekinli/Transcendence>

12.2023 – 03.2024

BB-TR Kaynak 
A Computer Science portal for enthusiasts. It contains well-written, well-thought-out and well-explained computer science and programming articles.
<https://github.com/b-tekinli/BB-TR-Kaynak>

JS Workspace 
A website with games and tools I developed while learning JavaScript.
<https://b-tekinli.github.io/js-workspace/>

Twitter Clone 
Responsive developed using HTML and CSS.
<https://b-tekinli.github.io/Twitter-Clone/>
